

Meeting Needs

Cardiac Conditions

Cardiovascular diseases and stroke are the #1 cause of death in Wisconsin. (Source: www.cdc.gov.)

Nine out of every 1,000 children will be born with a congenital heart disorder. (Source: www.americanheart.org.)

There are 10 camps in the Midwest that offer some programming for children with heart defects. Of those, none are located in Wisconsin. (Source: www.acacamps.org)

Cancer

Cancer is the #2 cause of death in Wisconsin. (Source: www.cdc.gov.)

One in 330 children will develop cancer by age 20. (Source: www.focwc.org.)

There are 13 camps in the Midwest that offer some programming for children with cancer. Of those, none are located in Wisconsin. (Source: www.acacamps.org)

There is a need for programs that serve children with special medical conditions and that reach out to their families. Crossroad Medical Outreach exists to meet that need!

Changing Lives

Summer Day Camps

Have you thought that your child could not go to camp because of their special medical needs? Are you worried about your child being away at an overnight camp? Then what if the camp came to you? Crossroads Medical Outreach offers Day Camp programs that bring all of the fun of camp to a city near you! Led by trained camp staff and with medical experts present, offer children a chance to experience all that camp has to offer without having to leave home! Our Day Camp programs also offers a chance for parents to network with other parents, a chance to speak to medical experts and to meet with counselors for support and assistance. Parents can spend their time learning while their children play or - because it's camp! - are welcome to play in the activities with their children!

Crossroads Medical Outreach was created by families whose lives have been touched by life-threatening medical conditions. For some of us, we do the work to honor the memory of our children; for others, it is to celebrate their lives. For all of us, however, it is to provide a safe, fun camping experience for children who have nowhere else to go.

Crossroad Medical Outreach is a place where all children share the same scars...

Summer Resident Camps

Crossroads Medical Outreach is currently looking for camps that are willing to partner with us to create a safe, hands-on program for our campers. To date, we have two partner facilities:

Crescent Lake Bible Camp

In 2009, Crescent Lake Bible Camp committed themselves to working with anyone they could - provided the individuals or groups would be willing to assist them to develop programs to meet their special needs. Crescent Lake Bible Camp offers youth and family resident camps with a wide-variety of programs and opportunities.

Eagle Cove Camp and Conference Center

Imagine a camp that is fully climate-controlled, one that features an indoor archery range, an indoor climbing wall, an indoor environmental center and much more! A camp that can work with children of all abilities. Now you will have a small idea of what this project is and what it will mean to thousands of youth who were never able to go to camp. (Eagle Cove is under development and should be completed by 2011.)

Retreat Weekends

Through our partner facilities, we offer exciting weekends for youth with special medical conditions and their families! Come and play in a safe, fun camping environment; make new friends; ask questions; and find others who understand where you are coming from. For our Family Weekends, we welcome youth and adults to play together, grow together and learn together! Network with others who share your experiences and seek advice from medical professionals in a casual, camp environment!

Can You Help Us Make A Difference In The Lives Of Some Very Special Children?

We are looking for the following:

Host Facilities for our Day Camp Programs.

Counselors or caring people to spend time talking with our campers and their families.

Donors to help underwrite the cost of the program or cover supplies. Our goal is to offer these programs at **no cost** to the families we serve!

Medical Professionals to help us provide a safe camp experience.

Volunteer Staff to help us provide a fun camp experience.
